## **Important events to be reported:** Obtaining CREST membership

The management of Safetech Innovations S.A. (hereinafter referred to as the "Company") informs the market that, starting from November 1<sup>st</sup>, 2025, the Company will become a CREST member, covering operations in the EMEA region.

Obtaining CREST membership is the result of a rigorous evaluation and testing process carried out over approximately three months, during which the technical capabilities, operational processes, and competencies of the Safetech Innovations team were thoroughly assessed and verified.

CREST is an international non-profit organization that sets standards of excellence for cybersecurity service providers and offers a globally recognized framework for ensuring quality and professionalism in the field.

The successful completion of this process confirms that Safetech Innovations meets the strict requirements set by CREST for the delivery of Penetration Testing services, in line with the highest international standards in cybersecurity.

Furthermore, CREST membership guarantees that all member companies deliver testing services to high standards and uphold a shared commitment to quality, consistency, and technical competence in the cybersecurity industry.

For the Company, this accreditation represents an important strategic step that will facilitat	æ
the provision of services on the UK market and support the expansion of operations in th	ıe
Middle East.
